

VOLUNTEERING IN INTERNATIONAL R4D DURING COVID & BEYOND

31st July | 1pm - 2.30pm AEST

Zoom Online Event

Australian
Volunteers

Australian
Aid

Please join us to hear how:

- The RAID network, the Vietnam National University of Agriculture, ACIAR and the Australian Volunteers Program are developing **exciting opportunities** for Australian and Vietnamese **early-mid career researchers to collaborate**.
- Volunteering, either remotely or in-country, builds critical skills for a career in international agricultural research for development.

Australian Government
Australian Centre for
International Agricultural Research

Crawford
Fund

NGUYEN NGA

ASSOCIATE PROFESSOR, VNUA

Nga works in the Faculty of Economics and Rural Development and completed her postgraduate degrees in the Philippines. Her research interests include agricultural value chains, and many more. She works with international organizations on numerous value chains.

ELEANOR DEAN

ACIAR GENERAL MANAGER,
OUTREACH AND CAPACITY

Eleanor leads the communication function, and the education and training programs. With a first class honours degree in Communication she has extensive experience and has worked in the Australian Government for over 26 years.

HANH HOANG

VIETNAM RECRUITMENT OFFICER,
AUSTRALIAN VOLUNTEERS PROGRAM

Hanh has extensive experience in partnership development and volunteer recruitment. She's also worked in rural development support projects in North and Central Vietnam. A highlight is watching the volunteers and partner organisation's journey and the differences they make together.

RSVP NOW!

<https://www.eventbrite.com.au/e/volunteering-in-international-r4d-during-covid-beyond-tickets-112050991532>

Attendees will be exclusively invited to register their interest in an opportunity to collaborate with VNUA and RAID, through the Australian Volunteers Program (minimum requirements apply)

ROBBIE MITCHELL

SCIENCE COMMUNICATIONS

Robbie helps people understand and appreciate science and technology a little better through social and digital media.

JAY ANDERSON

PLANT PATHOLOGIST & RETURNED
VOLUNTEER

Jay has worked on diseases of tropical and subtropical horticulture crops for over 15 years. An absolute career highlight was her six weeks volunteering in Lao PDR. Working with local and Crawford Fund colleagues, she looked at banana leaf diseases on small holder farms, learning and sharing about much more.
